**Recommendation to the Senate of the Parliament of the Czech Republic on
the Proposal for a regulation of the European Parliament and of the Council concerning
the respect for private life and the protection of personal data in electronic
communications and repealing Directive 2002/58/EC (Regulation on Privacy and
Electronic Communications)**

The Senate

I.

1. Agrees

with the declared aim of the proposal for a regulation – securing the users' privacy in electronic communication;

2. Considers

transparency to be the key element because it is necessary to ensure that the users know how their data are used, why are they collected or processed and which purpose they serve;

II.

1. Points out

in particular the risks of an increase in administrative burden, unclear definitions, additional costs for enterprises related to the adjustment of systems and short period for entry of the regulation into application;

2. Requests

a clear definition of the scope of the regulation in order to avoid inclusion of the information society services which do not belong to electronic communication services (e.g. Internet search service);

3. Is of the opinion

that the proposal needs to be modified in the area of the segmentation of the users for the purpose of more efficient display of online advertising in order to avoid asymmetric preferential treatment of several biggest and primarily non-European providers of electronic communication services at the expense of small and medium enterprises;

4. Supports,

in accord with the position of the Government, an adequate level of the protection of the end-users against unsolicited commercial communications;

III.

1. Requests

the Government to inform the Senate about the way this resolution was taken into account and about further development of negotiations once the political agreement of the required number of Member States on the main elements of the proposal is reached, or at an earlier time, should the results of negotiations in the Council begin to depart considerably from the position of the Czech Republic expressed in the General Position of the Government;

2. Authorises

the President of the Senate to forward this Resolution to the European Commission.
